

UserDB.java

```
1 package murach.data;
2
3 import murach.business.User;
4
5 public class UserDB {
6
7     public static long insert(User user) {
8         // TODO: Add code that adds the user to the database
9         // NOTE: This is shown in chapters 11-13
10        return 0;
11    }
12 }
13
```
